Mrs. Kathryn Drought  
1417 North Blackstone  
Jackson, Michigan

Dear Kathryn:

I am glad to inform you that "the lady with the smile" is surprising us all with her recovery. She has had the benefit of the best that medical science can offer and has responded wonderfully well. She is living a happy life at home, and apparently is gaining in every way. I wish that I knew something that could act equally well in your own case. Medical science has made wonderful progress in many lines.

Please give our love to the other members of your family.

Lovingly,

WCS:cb

Your cousin
