West

Sept 15 - 45

My dear Colles and Gertude -

This is one of the nice falls that
we up here, but so much warmer
deep and cool nights: Don is getting
better and sticks to his diet. Has
gained four pounds in the last ten
days. But may always have to be
careful about what he takes into
his stomach.

Everywhere we go we meet people
who enquire about Gertude and say
nice things about you both.
One was a lady whose sister had
a worn accident from G's when she
was in the hospital. Then the young sister
on the floor - and many others in all
walks of life. Mr. Tuncat was sorry they
did not get over to see you before you left.
