Topeka, Kansas

Dear Mr. Tabor:

I am writing to ask if you could give permission to us to re-publish the item, "Science Piles Up Evidence to Deny Man-From-Monkey Origin Theory" from your Sunday issue of October 3.

I have long contended that the scientists were dead wrong in teaching evolution as a positive fact instead of presenting it as an interesting theory. We owe a great deal to the scientists, but some of them are quite apt to "Go off half cocked."

Sincerely yours

W. C. Simons
