

MRS. DON ALFRED FREEMAN

TREE TOPS, GULL LAKE

BRAINERD, MINNESOTA

We have no live chickens since
before Christmas - but have them
in deep freezes and canned.
It must have seemed lonesome
with Oph and Maud and baby as
Florida - but know what a wonderful
time they had - I'll write them soon -
We were so pleased to receive a
picture of Frances's darling baby
in with their Christmas cards -
Hope R. U. does not love Sam
as coach - and it is fine that Allen
is well again to take over his job
How did you like C.H.'s Christmas
story? With lots of love for you both
and hope you feel fine - There must
be some reason for H's turning right.
Don now weighs 165 - his face looks almost fat.
Write soon with love you - Grace and Don -
