Mrs. H. F. Johnson  
Wymore,  
Nebraska

Dear Dorothea:

I am sending you herewith a letter I have just received from Janet in which she said they would like to come up about the middle of August. If you can make arrangements to come earlier, that will be fine.

I can still see little Dolph sitting on the walk looking out toward the lake.

I do not think it would be best for us to come by Wymore as it adds about another day to our trip going north. I shall be glad to see you later in the year.

Don't worry about any one else caring about who is with me. They mean well and I appreciate their kindly interest, but I am still able to care for my affairs quite largely.

Lovingly,
