

May 25, 1949

Mr. and Mrs. D. A. Freeman

Mike was president of his class and had practically an A record all through high school. I think probably he will enroll at K.U. and prepare for a medical education.

Dolph and family will take our Buick car and will leave Lawrence May 31 and will be gone until June 23. Dolph is still busy making addresses and today is in Fort Riley to speak before the Officers' Intelligence Course. We, Margaret and I, will not come to Minnesota until after their return.

I have today received an announcement of the graduation exercises at Ogden High School where Kathoryn L. Blackhurst is one of the graduates. You know how I feel, but I shall write her.

I hurried home from Minneapolis, Kansas, yesterday in order to vote for the school program which carried by a large majority. Mary Beth and her friend returned home after the graduation exercises Monday night and Mary Beth spent the night at our home.

Again thanking you for a very pleasant visit and with much love to you both, I remain

Your loving brother,
