

do not expect to see all the lovely flowers you have
down there for ours are a little later you know up here.

I am sure we shall like Mrs. King - if she is nice
to you - and all the family have written nice things about
her so she must be O. K.

It is a good thing you expressed your feelings about
some time ago so you won't have to bother with them
on this flying trip. Suppose Blanche and Pat had

a fine trip - shall be interested in hearing about it.

Also am anxious to hear of Dolph and Merri's trip
East.

Yes I think Ellen very smart and I believe
she is something like Gertude was at that age.

We shall all miss not seeing Gertude, but know
she would wish us to get away on the best we can
any way. I often think how brave she was to go on
with your birthday desires when she was feeling
so very ill. In fact it was wonderful of her
to make the trip at all - and seldom a complainer.

I love you very much and look forward to
Thursday with pleasure - Many thanks for the mother's
day gift I do not
as ever J. S. F. desire one - but it
was sweet of you

Dear Colbie:

We are very happy you will be with us for the opening of
fishing. We will meet the plane Thursday. Don't make any
arrangements to go back until you get here as fishing might
be good and besides there is no reason that you should
not stay with us until you are sure of good weather to open your
place. Will be seeing you Thursday

Don
