

DON A. FREEMAN POSTER CO.

TREE-TOPS - GULL LAKE

BRAINERD, MINNESOTA

I sorted the clothes you sent me and had all the cotton things washed by Mrs. Wade, and the other nice dresses dry cleaned. - Next week I have a dressmaker who will do some adjusting - some are a little too short for the present styles and some are too large but that is always so much better than trying to get clothes that are too small - I love you and hope it won't make you feel sad to see some of our dear friends' clothes if it does I'll not wear them where with you - I never see to wear things out so I have been giving some of my things away - and shall give more - There are three women right here that care what mine.

We received the nice Lookal of Dolph's yesterday and I hope he sent one to Lord Schiplac of St Cloud. - I am sure he would really appreciate it - I am sure.

The time goes so fast and in a little more than a month you will be fishing in the lake. Did Dolph get an answer from Lordley about the pump - your emigrants look fine this year - It is too early to tell about the plantings of last year - but they have had lots of moisture.

Thank you so much for everything and know that I love you always - and so does Don - I was sorry to read of Mrs. Alice Mitchell's death - I liked her - Devotedly - Grainger
