My dear Collier -

Frances Pickett has a very warm and good looking snow suit - thanks to you and is she happy over it. you should have seen her in the store trying it on! her little face just beamed with pride and happiness. She intends to write and thank you as soon as I send her your address. "No loss without some small gain" by not being able to get in to find her suit takes her to the store before Christmas. She could buy a fifteen dollar suit for \$9.47. It is a very pretty shade of blue pants and includes a very pretty shade of blue pants and includes a very warm and the coat is gray and blue with a hood that may be worn over her head for warmth or back on her shoulders. It is very becoming to her and is large enough for several years. I just looked at coats but was told that the girls wore these warm snow suits to and from school and put them in their lockers while in the school and wear their little dresses - then change again before going out in the cold. The few coats in the store that I looked at were from 1998 to 28.00 and not as warm -
