

they went back happy -

Your letter of Jan 4 - I was very interesting
and I should have enjoyed talking to you about
your dream of Julia - I do not dream of the
loved ones who have gone on, as often as I
would enjoy doing so nearly always the dream
is very pleasant and real. I have tried
very hard to communicate with Louie - for he
had told me many times, if it were possible
he would let me know - if he died first and
I was to do the same if I were the first to go. He
also said "If you never hear from me you will
know it can't be done, for I shall try etc"

What a fine compliment for Ralph to be
invited again to go on such a wonderful trip and
I hope and pray his health will be fine and he
will return to tell us of all the wonders he has
seen and the close contact with the other interesting
men will also add to his fund of information.
Today I have been looking at Rand McNally maps
and planning on some trips for you and I and our
to take this spring. But thanks to paying the income
tax etc we had not better plan on a trip in the near future
altho I hope you for inviting us to spend a couple of
weeks with you in L. and I am delighted you have found
nice people to live with you in your home. The attitude toward
having Maria and family - is very nice and makes it more
pleasant for all of you - don't know as both Graces

new children - yesterday - pictures of her new children - yesterday -
