My dear Belle -

Have been thinking of you so often, for the last few days - but that is nothing new. I think of you every day and night sometimes. I have heard from your little girl Frances Packard at last - but not until after Christmas but now that I know where she goes to school in Brainerd I shall place to meet her in town and buy her something she needs, from you. Then she wishes to write you and asked for your address - which I shall give her. I shall call up and notify me to come down for a bridge party she is giving for Mrs. Smith of New York Peggy's mother in law - but it is too long a cold drive for Dan to make unless he has to go - so I sent regrets - We had a very nice Christmas and New Years - and I wore my lovely pearls as to B. New Years day when we were invited to an Open House I thank you again and also for just being you. Dan is waiting for this is a poor scribble -
