go somewhere else as it rained & entirely too much & have both families ill. By the same time and rained not to pleasant for you either -

We have had lots of rain and it has been cool and pleasant here so far this summer.

I always enjoy being with you. It was very much of you & the kids. I had a hospitable & cheerful hostess and suppose you had role from her too.

I think we will just be lazy today. Yesterday I picked about four quarts of cherries for our table and made a fresh cherry pie for supper & then - & have eaten most of them. We are going now some apples. Let apricots, plums and peaches don't look very promising. Hope die ex harvest.

Will close for now - would so much like with much love -

Jennie
