

I was frightened - of course - but he did prove to be
a Fuller-Bush man - and after a few minutes I got
rid of him but felt nervous for quite some time.

I know if Raleigh or Mattie had been here he
would have begged me to call them off as they
would have caught him by the pant leg - this
minute his foot appeared - and if he had tried
to enter against my wishes it would have been
just too bad for him.

We have to wait until Spring to get out through
the collis - then I will not be afraid any more.

So glad you had the nice Thanksgiving with
Blanche and family - and do hope she will
send me some of the pictures.

The man is calling for mail to take into town
I had hoped to write to Marie and Dolph by this
same mail so please tell them theirs will come
Monday - Thank you so much for the news
about John we are very proud of him.

Give my kindest regards to Marguerite - I shall
write her soon, I hope.

We know you are going to enjoy your television
set - They are something "wonderful"
Loads of love from us both -
Devotedly
Gayer
