

October 11, 1949

To the force:

I will warrant that few patrons of Lawrence Memorial Hospital have ever been cheered as much as I was through receiving the wonderful greeting card, bearing your many, many signatures.

In being proud of our paper and our institution, I am always mindful of the skill, the cooperation, and the good will of the force. May you all enjoy good health and happiness.

The flowers you sent me were beautiful and are now blooming at my home.

Cordially yours

W. C. Simons
