

June 8th 1949

Mr. and Mrs. Dolph Simons
The Fairmont Hotel
San Francisco, California

Dear Dolph and family:

The Kings returned last night accompanied by Margaret's fifteen year old sister who will visit her for a while. Otis, I think, leaves Saturday for his field trip to Wyoming.

Rain has become quite a threat to the wheat fields of Kansas. As you may have seen, the Arkansas river reached an all time high. We get a little rain here almost every day.

Business continues to be good--fourteen pages today.

I had a letter from Grayce today who said that Don had had another relapse, but I think he is improving again. I am sorry that they are having such a hard time. The letter said that they had contracted Parsons to open up the cabins and put out the docks.

I think Mrs. Larrick leaves us in a couple of weeks to go to Kansas City. Her husband has decided to take up some form of business instead of continuing as a premedic.

So far today I have not heard from you, but you have been mighty good about writing so far and perhaps I shall hear from you before night.

Much love to all,
