Dear Blanche:

I was very glad to receive your recent letter. I also had a letter recently from Eileen. As a matter of fact, it was mailed on November 2, the same date you mailed your letter. She is a darling girl, and I have always been very fond of her and also love very dearly her manly little son, Mr. Wayne. Eileen has beaten me in cutting her last wisdom tooth, for I still have one. It lies lengthwise entirely beneath the gum and I only know it is there through x-rays.

I am glad that Pat is feeling well, and sincerely hope that his marked recovery will soon result in a total disappearance of his trouble.

Dolph and Marie returned from Salt Lake where they witnessed the game, and where Dolph met with other alumni of the University. He said that Dolph, Jr. played a good game. In the recent game at Haskell between K.U. and M.U. freshmen John played a whale of a game as a safety man and stopped several runs which otherwise would have been touchdowns.

I am glad if I make you feel welcome because you certainly are welcome, and I am happy to have you with me at any time you can come. The idea that you have of going over some of the things at home pleases me. The storage closet certainly should be cleaned. There are a lot of empty boxes which are of no value and which are somewhat of a fire hazard.

I know that you had a good time with Bob and Marilyn. Irene and Les are still giving me first class attention.

You have, and always have had, my love, and please extend it also to Pat who is a darn good boy.

With love,
