

guess I'll just see you all in December
this fall, any way, I'll have this
work go to my chest. It's worried me for
so long & I feel as long as we keep this
house I must take care of it.

It has been raining hard every day
in July & we are eager to see some sunshine
altho, it has been wonderfully cool.

Saturday eve, I attended the opening of
the new, the Nat'l Bank Bldg. as Miles
guest. It was out of this world - the last
word in lavish display. Gladys Swarthout
& Deems Taylor were here & Claude Thornhill
& his band & Leon Dr. Auliff & Johannes
Lee Wills & a gypsy group - Julia Phil-
Carmin gave a concert - the street
was all roped off for several blocks &
they estimated 30,000 in the audience,
The clocks checked over 30,000 within
an hour in the bank & there was a roar
again when the escalators started up &
down & there was no place for people to
go when they got out.
