

Friday.

Dear Dad -

No special news except
that Pat started A.C.T.H. yesterday
every 6 hours & shows no bad
reaction & possibly improvement.
He at least feels better. Today
seems more dry. We are losing
sleep until about 12: midnight
& 6 A.M.

Got a call from Eileen Post
into & she is fine. Wayne talked
to me. She says he is very active.

I am going to town today to a
lunch for Elaine & do a few
errands. The weather has
stayed pleasant, around 85°
& we have had showers.

However had to have the new
place sprayed yesterday \$60
worth of work - to get bug wires
& red spider making hay on
us -

Love you so much & hope
July & bring you much happiness
Dewey Blanchette
