

We still have 2 nurses on duty from 7. A.M. until 11. P.M. I have been getting but a little, but can't get away from home, ^{but of town} on account of that 11. P.M. to morning duty. Maybe some day!

Marilyn will be here this week end or next week & if Marie's baby doesn't come before she leaves & does come while she is here - I may go to O.C. for a day or so. Marilyn called last night & said Marie was fine - no signs of any thing doing.

I have a dentist appt. at 1.15. I am still trying to hang on to the few teeth I have left but I dread this ordeal.

We are having our first spring rain. a long, constant & gentle one which has been going about 24 hours. We certainly needed it. None at all since March.

See by the paper that Auburn Neb. had a flash flood - Do you know anything about it?

Must close with sending a great deal of love & admiration to my dearest Dad.

Devotedly

Blanche -
