Tree Tops — Gull Lake

My dear Collier -

I wonder if you remember just where you were forty seven years ago?

Today is a beautiful day here sun shining brightly and no snow left on the ground and lake still open. I amptons will likely go fishing again today as they have been going right along -

We are having our anniversary dining with Ruth and Peig and on Thursday we are having all of Mrs. Lachley's who are near enough to come for Thanksgiving there will be about twelve of us altogether.
