

Sept. 25-50

My dear Collis - ^{Ans} 9/28

Just a line to tell you I love you and have to hurry to send with Mom, who is made to go in.

We have both been fighting bad colds for a week but they are slowly getting better.

I notice by the paper, the J-W that Lawrence is coming right along in building - new industries etc

Laura for asking us to visit you - The money drop in before the winter is ours - No I wish right here so far but it is touching all around and we shall get it soon -

N. U. did pretty well with its first football game. Loads of love to you and all - as ever
