Minnie and I went down to
your cabin and found Mrs.
Jack B. had put your
laundry away.

No signs of mice any place
so far -
Wm. has been keeping Minnie
and Mrs. Ravstad (our motor)
well supplied with fish.

We caught about a five pound
Black Bass - the last one out
Bull Heads are also showing up -
Gulls and Larks Edgewood Road
Minnie has canned 16 bushels of
tomatoes from our own garden - they came
late but are the best we have had in years.
