

DON A. FREEMAN POSTER CO.

TREE-TOPS --- GULL LAKE

BRAINERD, MINNESOTA

May 12 - 50

My dear Collier -

Just a line to tell you we love you and are hustling to get our spring work out of the way - everything being so late - Just a year ago the fountain you were with us for fishing - The ice is still floating around in the lake but the loons returned so we know it won't be long - I think by Sunday - it will go -

We have a new housekeeper young and strong thirty two years old - too soon to tell just how well things will go - but very thankful to have help, and ^{do} allow her some privileges that I can bear -

It is only a little over a month until I can see you every day - that will be fine

We both love you so much -
Love to all the family -

Devotedly J.F.F.
