My dear Alice -

It seems quite a while since I've had
one of your good and most interesting letters.

I do hope you have better weather in Kansas, than we
have here for after our snow had almost melted ex-
cepting the heavy drifts - it started in again on
Monday and snowed all day and night a most
heavy snow that was so heavy on the evergreens that
the branches were bowed nearly to the ground and
limbs and trunk inches of snow fell on the limb.

It is only about 30 above today - and will be again
to night. As the weather has prevented us from building
our new garage and we have had to keep our new car
in the garage, where we have always had it, and have
not had to visit the cottages. But have had many chances

We are expecting to visit to Abilene, Mo. to
see a housekeeper, who has applied for work here
and after we see her, which will be Sat. morning, if
everything is O. K. will see her sister Mary.

We also have another one to see who will be here about
May 1st. So if anything happens to your couple
let us know and maybe I can get one for you. Both
of these girls are our thirty-year-olds.
