

I have been going to write Eleanor
and send something to her little boy
ever since morning the summer almost
went but have been so very busy
keep putting it off.

Enjoyed the very interesting letter
from Marguerite King - and shall answer
it in the near future. She has a
wonderful "knack" or flair for writing
interesting things.

Walt in has been out here, a little
over an hour there has been a constant
stream of cars driving in and out and
up and down the three streets - some
have been under construction
others are word to buyers. All of them
tell us how beautiful the addition is.
I think all of you will see a much im-
proved Princeton when you are here next year.
