

December 6, 1950

Mrs. L. A. McNalley
Minneapolis, Kansas

Dear Janet:

I received your kind invitation to spend Christmas with you but I had already received an invitation from Dorothea and family, and also from the Dibbles to spend Christmas with them, which I have planned to do.

Mike dropped in on me the other day seeking a quiet place to study and I turned the house over to him for such time as he wanted it.

Dolph and Marie are planning to take the two boys on a trip to New York between Christmas and New Years, and I am sure they will have a good time. Life is rather uncertain with them now because of the war and the probable call to service to Dolph, Jr. as soon as he graduates. John had a morning of excruciating stomach pains and was taken to the University Hospital. The pains were quickly handled and I think he spent the following night at home.

There is nothing new with us here. Irene and Les expect to spend the holidays with her folks in Herrington and his family in Wichita. I shall be glad to have you come in whenever you can.

Much love,

WCS:bjh
