

if it is part of a long range
plan by the unions. Warehouse, City
Building, City Schools etc.

Tell Ralph things are looking
up on the "D M" Laboratory. He
seem certain to have a train
come out and look us over.

Nothing definite however.

Temperature this morning on
the gas company thermometer was 47°.

This boy "Johnny" Andrews is
growing so you better be stopping
in to see us when you get
back. He sets a lively pace
all day that now includes UP
trains in the early evenings. He
will have a great time with his
grandmother and Aunt while we are
in Indiana. He says nothing of his
father. Mother is merely three years
old. We miss both you and Ralph
