

Sunday July 30

Dear Grandad,

Again it looks as if I have fallen down on the letter writing job. I have received your swell letters and am very sorry I have'nt answered them like I should.

I am down at the office now and dad is opening up the mail. We got a letter this morning from mom and we got one from you addressed to the Journal World Force. I am sorry to hear about the poor fishing, but I guess dad and I will have to show you all up there how it is done. You said it had been warm up there. There has been only one day this month that the temperature ~~has~~ has gotten above the 90 degree mark. It was the 2nd. day of July and it got up to 91 on that day. Since then the temperature has been in the upper 70's most of the time.

I guess dad and I will leave for Minn. this Friday and will get up to Brainerd sometime Saturday. We plan to leave Friday afternoon, and stop somewhere in Iowa.

I too have been playing some golf this summer but not as much as I should be ~~playing~~. I started off playing quite a bit but I have been pretty busy and have'nt played as much lately as I would like to ~~play~~. I hope I will get a chance to go over to the Pine Beach course when I get up to Minn.

There is'nt too much news around the office. They have changed the beats up in the news room starting August 8 and it should make an improvement in the reporting. They are going to put ~~Bill~~ Bill Mayer on the K. U. beat and the draft headquarters. Nora Temple has been up there but she does'nt seem to get all there is to report
