

Dyche Museum

June 9, 1950

Dr. Raymond Hall, Curator
Dyche Museum
University of Kansas
Lawrence, Kansas

Dear Dr. Hall:

My mother was a Kansas pioneer, arriving in western Kansas in the spring of 1878. I wonder if it would be possible or desirable to have a diorama of a western Kansas home of that period.

It should have a background of rolling prairie with buffalo grass, perhaps a few loco weeds or cactus, and a sod house or dugout with a well, either with a pulley and bucket or with a windlass. If you have nothing of that nature it might be of interest.

Respectfully yours,

W. C. Simons
