

I have got a very pretty
Scratchbook with 70 or 80 pages
last evening I put in a
great many pieces in it I
have been copying some more
of my compositions in
my book the Prairie Flower
I would like to write every
day in my Journal. We have
had a Temperance Supper
at our house we had a
very good time. Mother has
had a call from my Friend
Martha's Aunt. My Health
is as good as usual. and
My Parents and Brothers
are as well as usual
I must close as it is getting late

May he teach me so to number
our days and apply our hearts
to wisdom I ought to pray that
he will teach me to love and
fear May I grow in grace every day
Monday Marc 2nd 1852. My Health
is quite good what a blessing
how much we ought to
thank the Great giver of all
good and perfect gifts
it is not as pleasant
although we ought to be
pleased with any kind of
weather sees fit for us to have
it has been very stormy all
day and it has not abated
