Dear Uncle Collie:

I wanted to let you know that we have arranged to have two stones placed at the cemetery; one for Mother and one for Karl. They were to have these up by Decoration Day, but, as we will not be able to be there, I am not sure that they will be up by that time.

You will notice that I am writing to you from Fort Worth, but we are living in Houston and are just here for a few days for Joan's graduation. We moved to Houston the first of February of this year and I was given the whole Gulf Coast area, which was a nice promotion. I am listing our home address below and of course, you know I am still with the American Optical Company, so if you or any of the family gets to Houston, we would sincerely like to have you contact us.

Hoping that this finds you and your folks enjoying the best of everything, I am

With kindest personal regards,

R. W. Reineke
