

(Tanguay)

By Norma Gregg.

"Please dont forget me when I's gone"

This world has many, many pleasures.
We all have something that we treasure.
One thing's priceless beyond measure,
I'm sure you'll agree.
It's a friend who's never tearful,
Who never does a thing that's fearful,
Always smiling, bright and cheerful,
wherever he may be.

Chorus

Please dont forget me when I'm gone,
How often I've cheered you with a song.
I've smiled at you from daily papers,
For you I've cut silly capers.
I never wore a face that's sad or long.
And when the time comes that we part
It's sure to cause a little pain right in my heart.
Now I'm quite sure I'll not be fired,
But the day might come when I'll get tired;
So, please dont forget me when I'm gone.

2nd verse.

Years have passed since first I met you.
I never, never could forget you.
You cant be sad, for I wont let you
Your heart I'll beguile.
You may say I'm this or that
Tall, or short, or leant, or fat
But one thing you cant combat,
It's Eva-with-the-smile So,

Chorus

Please dont for get me when I'm gone,
How often I've jollied you along.
I've given you some new sensations,
Worn some gowns that were creations.
I've hunted high and low for clever songs.
And when the time comes that we part,
Just keep for me a little corner in your heart.
And when I quit I'll not be stalling;
It's just because my Master's calling
So, please dont forget me when I'm gone!

P. S. I'm only sorry I havnt the music here, for the melody is very beautiful, and as she writes her own tunes and is priceless when it comes to making her own arrangements, the whole song is really a little gem. No wonder the NY reviewers wrote it up as they did. She promised to give Norma \$3,00 worth of advertising, but she never did. If Norma had been Jewish, she'd be a millionaire with the numberless clever songs she has written. One of them was picked out of all the congs in L A by the head of the music department, as the theme song for the elementary schools, & it was sung and FEATURED by every school in the town.
