City Fire Department
Lawrence, Kansas

Gentlemen:

I checked my soda acid fire extinguisher at my home at 2500 Vermont Street this noon and find that the contents have not been changed since 1946. In the past, I think you have serviced that for me once each year, and if you still do that kind of work, I shall be glad to have you do it, or let me know so I can do it myself.

Can you tell me who services Pyrenes and Fire-fyters, or who sells them?

Thanking you in advance, I am

Yours truly,

W. C. Simons
