

Miss Frances Pickar

March 27, 1950

he takes as much pride in his home as his wife does.

I am writing you this way because I realize how easy it can be for people with small houses to become careless with themselves, their homes and their yards. I am looking upon you as an exception. I feel that if you have the courage and the energy to secure an education and will always be careful of the company that you keep that you can be one of the outstanding girls of the Gull Lake neighborhood.

I can speak with experience because I have four children, ten grandchildren, and one great grandson all of whom are giving promise of an outstanding and worthwhile life. Talk things over a bit with some business or professional men in Brainerd and see if they will not approve of my advice.

Sincerely yours,

W. C. Simons
