My dear Oliver -

I have felt like phoning you all day - just would like to hear your voice - and also to know how M-J's little Sally is. All I know is what I saw in the J-W. She was taken to N.C. for observation - that sounded like it might be serious. Hope she is home again and O.K.

We have been watching it snow all day and we had a foot fifteen inches on the ground. We could not see the Island or Pine Beach Hotel but the temperature has not been so low as some days. It has been a heck of a day - I have good news there is only ^{one} more week left.
