Dearest Dad -

Here is where you should camp next winter. You & I will drive down here for two weeks. It's quiet & restful and very beautiful. Nice class of people, no drinking & very orderly crowd. The grounds are spacious, green grass, azaleas, carnellias (about gone) and our room faces the blue gulf. The heavy freeze killed the palm trees again and they were chopping off the old fronds this morning & only a wee tip of green is left.

Our trip down was uneventful and we delivered Marie & baby ^{Thursday} afternoon at Newton Miss. where her father met her. He was a very good child and cut another tooth on the way.

Marie is out sun bathing this afternoon. The sun is very warm but the breeze is cool and we are always comfortable.

It was so nice having you & Dora with us last week. I hope you were not worn out with so many people and the confusion.
