Dear Dorothea,

This is the 14th and I am at the office for a short while. I was glad to get your note and know that you and yours are OK. Janet is here and I am fortunate in having three unusually good and capable daughters. We, too, have had too much rain but it has been reasonably dry this week so the farmers undoubtedly have been able to do some work.

I am getting lonesome to see you and your fine family. The boys are going to be so grown up pretty soon that I will hardly know them.

I am just down for a short while. I am coming along all right but am not building up quite as rapidly as I did when I had not accumulated quite so many years.

Will be glad to see you all.

Lots of love,
