

Mrs. Don Alfred Freeman

Tree Tops - Gull Lake Brainerd, Minnesota

May 22-51

Dear Collie -

I have had this envelope addressed to you for over a month. but have been quite ill - high blood pressure etc.

I have written Janice and Dolly ^{and Marge's} but told

them not to worry you - about me. I have had mes. struck from all of them also. Nothing.

Rights were when there is so very much to do - the doctor ordered me to do nothing and not to go up or down stairs.

He gave me digitalis, at first, and it brought my blood count down - but I do not get my strength back as fast as I want to - and my mouth tastes so bitter. The weather is fine and

fishing very good. Don gets his limit almost every time he has been out, when he came in tonight he said "Collie could not have stood it the mosquitoes were so terrible tonight"
