

Sept. 4, 1951

Mr. and Mrs. Don A. Freeman
Route 6
Brainerd, Minnesota

Dear Grayce and Don,

Mac and I arrived home Saturday evening and without any special effort, we kept in touch with Janet and Mary Beth at filing stations and lunch rooms and for the evening at Carroll, Iowa.

Before sending my shirt to the laundry, I am quite sure that I removed my cuff links but if I did so, I put them away so carefully in the cabin that I could not find them. I think it might be well to ask the launderer if the buttons came with the shirt, but I doubt if they did.

We enjoyed our summer very much with you and hate to look forward to the many months before we shall again be with you. I hope that everything will move along fine and that you will have all improvements completed so that you can thoroughly enjoy your very complete modern home. Please give my regards to the Purintons. I think I thanked her personally for the fine birthday cake and then had them for dinner guests at Pine Beach. I think you have very pleasant neighbors indeed in the Purintons and the Framptons.

I found everything all right at home, but it had been very wet and I think has rained every day and night since I got back. Fortunately, our home is well-drained with the water running south to the Wakarusa River.

I went down this morning and renewed my driver's license. I don't know just what age they quit issuing licenses, but no questions have been asked so far.

Let me hear from you often.

Lovingly,

WCS:en
