TREE-TOPS --- GULL LAKE

**BRAINERD, MINNESOTA**

April 18 - 51

My dear Collier -

You had your voice on the phone, sounded like a man in the prime of life, and I enjoyed talking to you.

It has been very lonely around here since you went to Duluth last Sunday - but now we are going after him tomorrow and will all be together again. According to his tests he has no bad complications and most of his tests - heart, liver, kidneys etc were

100% =

He has phoned me every evening I know he has missed being in a hospital where he is so well known as is the case in St Cloud and Brainerd, but he has liked his doctors.

But seems very strange since his operation by Poirer was to be very thoughtful. I am very sorry for Redd -
