League - The play we give is Hansel and Gretel and we troop to all the public grade schools. It's quite a professional show - (we think) but this week we aren't rehearsing as one of the cast came down with Polio Friday. We were, of course all exposed - but I feel that polio is something you can't fuss about - as there is nothing you can do to protect yourself against it - except to be in good physical condition. It strikes in no particular pattern. It is such a frightening thing & though as so little is known about it. We carry a medical policy to cover it - and hope that I'll never have to use it.

This last week-end we started getting ready for winter — No 1 on our list was fixing "Mii"'s dog house. I got a lot of cedar chips and we made several pilgrims out of sacks — for him to burrow into. Cedar chips make him smell so good + I understand keep the fleas away.
