

May 7, 1951

Mrs. L. A. McHalley
Minneapolis, Kansas

Dear Janet,

Nothing especially new here over the week end. I went with Dolph and Marie to the Alumni-Varsity football game and enjoyed being out. The temperature last night dropped to 43, which was rather cool but above the frost line.

Everything looks very pretty now that the foliage is in bloom and I should be glad to have you come down while the lilacs are still beautiful.

I am sorry too that we did not get in touch with Mary Beth, but we were only down for a comparatively short time and were quite busy. I was at her apartment some months ago and she had everything arranged in a very attractive manner.

If the Johnsons came down yesterday, you probably had a rather busy day. The boys are a lively bunch.

I have been receiving replies from various libraries but largely in the nature of regular acknowledgements.

I have a letter from Dorothea dated April 28. They live rather of an active but happy and useful life in their community as you do in yours.

At the football game the other day, it was probably one of the first times that Dolph and John played against each other on opposing teams. Fortunately, neither one was injured.

The only company I had yesterday was Dolph and Marie for a few moments and Mrs. Parish's parents and her seven year old brother from Harrington. They are good solid people
