Dear Mr. Sumner: -

Many years ago
when I was a student I copied
various poems and other
sayings that appealed to
me - I found ~~the~~^{note book} in a drawer
the other day and it seemed
so apt and I enjoyed it
and thought you might,
I never dreamed when I
wrote it how it would
apply at the "sunset of life" -

Cusplodds are a variety
of lily that Homer mentions
as growing "In the valley of
the Dead -"

Sincerely -

Mervin T. Sudler
