Dear Mr. Simons -

It isn't every man who is privileged to live 60 years in one community. You have had your share of problems & troubles, but the Lord has been good to you. Certainly your good fortune can't be chalked up to good luck but rather to a good life. The man who gives full measure always gets it back & to spare.

When the story came out in the Journal-World last week my son - John - met me at the door with the paper. He was all excited about the story and had read every word. Sixty years of service to Lawrence made a big impression on him.
