Dear Blanche,

I have your post card from Taxco, Gro., Mexico, and the place looks inviting. Your mama and I spent nearly a month in old Mexico where we had many unusual and happy experiences. It seemed to us that wherever we went, we met many people who were worthwhile and who through the years have been remembered with a great deal of satisfaction.

I have not been at the office much the last week, but I am feeling better now. Both Janet and Dorothea have visited me in the last few days and I have enjoyed their company.

Love,

Dad
