

To get him & drive & Lawrence & spend a day & then so you could see him.

Have you thought anything about going to Minnesota this summer? I think we might persuade Pat to go up for a little while. I'll work as hard as you like that.

We plan to leave here Tuesday for Mexico City & will be at the "Maria Christina" a small hotel which has a garden & patio and is out a little way. Pat thinks it would be a nicer place for Mother, rather than a large tourist hotel.

Yes, we know the Leegers (the girl who shot her husband). Every one thinks she is a mental case & it has come out that she was in a mental hospital before she married the second time. Her parents are our neighbors & live in the large, white house with blue trim, near Lewis ave. on 24th St. Marie remembers her mother as one who opened up & told her her family troubles when she first met her.

I'm glad you had your shrubs turned up. Things can get to look as tho' they weren't lived around unless they are kept up & I know you always did that.

It's 6:30 here today & Pat is playing golf. I walked around the yard to get a little strength back.

Dad, I have both Shaws here as they were designated to me in the bequest list. I'm taking care

all my love, Blanche
I think the Mexican Shawl is to Marlene.
