Dear Uncle Collie,

Just want to thank you very much for the twenty dollars. I have spent it on a gift for myself.

This fall I realized that I was becoming more allergic to wool and have just purchased my first rayon Gabardine suit, with the money you gave me. It is very comfortable on me and I am so glad that they are being made now so that they are pretty.

The case reminds me of the morning that Nylon stockings were first put on the market...it wasn't noon before you came by my house with a pair..knowing how allergic to silk I was...I had been unable to wear any stockings at all for years.

Your thoughtfulness has helped the Stoughs in many many ways, as you know. I just want you to know that we really appreciate the things you and Aunt Gertrude have done for us.

With a great deal of love from us all,

Mary Jane
