There is no conception of morals aside from power in Germany. Prostitution and beer drinking became typical of the nation. Before the war broke out three per cent of the residents of the capital city of Berlin were ~~registered~~ licensed prostitutes.

Does that fact give you any idea of the German conception of women? Does it throw any light upon the treatment of the women of the conquered nations? Can a nation which will permit its own women to be crowded from the sidewalks by its soldiery be expected to show any consideration for the women of other lands. -- especially the weak and helpless.

German propaganda in America has been aligned with the liquor interests and the millions made in ~~battering~~ ~~intoxicants~~ to robbing men of the dearest things in life--of honor, happiness, loved ones etc through the sale of intoxicants has gone to enrich the treasury of Germany.

The German American League was backed by the money and political influence of American liquor interests even after it was known that the purpose of the League was to make Germany Supreme.

George Ehret, the Hell Gate Brewer--an appropriate name. made 40,000,000 in debauching American men and women and used his money to further German interests, finally remaining in the land of his birth and thank God we have at last seized what we could of his fortune.

Mrs. Adolph's Busch-- whose husband affected to be a lover of art--that he might continue in his nefarious business--~~etc~~, she too has been giving her wealth to debauch the American people through the purchase of American and French newspapers to spread German propaganda. Enriching Germany that she might conquer America.
