NEW YORK

-2-

At present, I would not contemplate a change, even into the advertising field, and I now, wish to take the opportunity to thank you most heartily for the efforts you have made in my behalf.

If you and Mrs. Simons come to New York in the future, I certainly would enjoy renewing acquaintances and resuming the verbal battle on Mexico, Calles, Inc. I, also, left Mexico with the same feeling that you seemed to have gotten ~~that~~ that it is a land of pleasures, luxury and questionable investments.

This naturally would lead into our own country, which is now in the throes of the political hokum. Outside of the money, graft and wasted columns, I am of the opinion that there are two good men in the field. This will be my first opportunity to vote and so I'm going to pick a winner. I picked the winner at the Argentina-U. S. polo match, Wednesday but it was my first game. Today, I was not fortunate, and so it seems experience is not always essential to success.

Naturally, I wish to extend my sympathy for the loss of your son, which indeed must have been a heavy blow. I should be pleased to hear from you and renew our friendship.

Very sincerely yours,

*McKendree Johnson*
