My dear Mr. Simons,

I last had this pleasure on the 12th., June last when I sent you a certificate signed by the owner of the South Pacific Mail, which I hope you considered sufficient proof of the authenticity of my narrative of Becker's crime.

I am now sending you a history of Becker's life prior to the crime.

My idea is that should any one have purchased the part I first sent he might find it interesting to acquire this part also & publish a little book which might find sale at railway newstands

In my opinion it would be necessary to give the book a lurid front page & say a burning building from which a man in uniform is escaping.

Thanking you again for your kindness in attending to this matter and with kind regards to Mrs Simons,

I remain,

Yours sincerely,

Enrique Sim
